FEDERAL COORDINATOR OF TRANSPORTATION

NOTE.—The Office of the Federal Coordinator of Transportation ceased to exist at the end of 3 years, on June 16, 1936. The law provided that any unexpended balance remaining at the termination of the office should be returned to the railroads. The railroads were requested and agreed, in general, to permit the use of the fund in completion of the research studies. The reports now being issued complete the work. Permission to use, for printing, from unexpended National Industrial Recovery funds which had been allocated to the Coordinator was given by the Bureau of the Budget.

Progress maps

NOTE.—These maps show the status of improvement of Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways. As the transportation maps for each State become available, publication of progress maps for that State is discontinued.

Topographic quadrangle maps

NOTE.—The Geological Survey makes the contoured—i. e., the three-dimensional topographic maps of the country that are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to ½ mile, 1 mile, and 2 miles to 1 inch. The area covered varies with the latitude, but the average area of a quadrangle is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together. In ordering, give the name of the map and the State in which the area lies.

tion shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the Bureau's needs.

The subscription price of the *Reclamation era* is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., and remittance in the form of postal money order or New York draft should be made payable to the Bureau of Reclamation. Postage stamps are not acceptable in payment of subscription.

NOTE.—The Federal register contains (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof; also contains all Executive orders establishing, amending, or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. Rules, regulations, and similar documents promulgated by 122 different agencies of the Federal Government have been printed in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register, as such, subsequent to June 3, 1938, have been discontinued.

The Register is sold by the Superintendent of Documents on the following terms: Single copy, 10c.; \$1.25 per month; \$12.50 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Washington, D. C.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,550 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for January 1940, page 109.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The only Smithsonian publications that are regularly issued as public documents, are the annual report volumes. The publications in the other series have free transmission by mail, and therefore, are included in the Monthly catalog.

STATE DEPARTMENT

NOTE.—All publications of the Department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. The Department of State Bulletin, published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (no. 165 which is listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, *Federal register*.

TAX APPEALS BOARD

NOTE.—The Board of Tax Appeals reports are first promulgated in leaflet form, designated as "advance sheets." At the end of each month, these advance sheets are consolidated into pamphlet form and published as "advance parts." A list of memorandum opinions is included in each pamphlet. Later, the advance parts are consolidated and issued in bound volumes. Both the advance sheets and the advance parts are sold on subscription by the Superintendent of Documents, Government Printing Office, Washington, D. C. The subscription price of "advance sheets" is \$2.25 per volume, foreign subscription, \$2.85; single copies usually 5c. The "advance parts," or monthly consolidations, are sold as follows: 20c., single copy, \$1.25 per volume, foreign subscription, \$1.85. The price of the bound volume will be given upon application.

MISSISSIPPI RIVER COMMISSION

NOTE.—The publications of the Mississippi River Commission consist of annual reports, annual pamphlets showing daily river stages, annual pamphlets showing daily river discharge, and annual pamphlets showing results of river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the Mississippi River Commission. The Mississippi River Commission publishes maps and charts of the Mississippi River; navigation maps of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, Louisiana; and wall maps in colors of the lower Mississippi River Valley from the head of the St. Francis Basin near Cape Girardeau, Mo., to the Gulf of Mexico, Louisiana, scale 1:500,000 and 1:250,000. Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Mississippi River Commission; the topographic quadrangle maps comprise over 200 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi, and Louisiana adjacent to the Mississippi River and tributaries, with an area of almost 51,000 square miles mapped. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. Box 80, Vicksburg, Miss.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines, and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, may be purchased for 75 cents from the U. S. Lake Survey Office and from the Superintendent of Documents. The bulletin is revised annually and issued at the opening of navigation (in April). Supplements thereto are published monthly during the navigation season and are sent free to all who purchase the bulletin.

Complete sets of charts and publications may be seen at the U. S. Engineer offices in Duluth, Minn.; Milwaukee, Wis.; Chicago, Ill.; and Cleveland, Ohio, and at the Office, Chief of Engineers, U. S. Army, Washington, D. C., but they are obtainable only at the sales offices above mentioned.

Explanation

Words and figures enclosed in brackets [] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C.; if processed, publisher is issuing office. When size is not given octavo is to be understood. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents and requests for them, if they are available, should be addressed to the issuing office.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, press releases and administrative, regional, and confidential publications are omitted.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (the 25 percent discount to dealers does not apply to the Congressional record (daily issues and subscription), Supreme Court reports (bound volumes and subscription), Catalog of copyright entries, Climatological data (subscription) and all weather maps, Weekly corn and wheat region bulletin, and Weekly weather and crop bulletin, Federal register (subscription), 1938 U. S. wall map, old Naval documents, and Writings of George Washington, which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock, which amounts to more than 8 million, includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the price lists, the Documents Office issues a Weekly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 72, 76-1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Colombia, Cuba, Dominican Republic, Ecuador, Guatemala, Honduras, Mexico, Newfoundland (including Labrador), Panama, or Venezuela. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Card Division, Library of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sent to public libraries free on application. Subscription price to individuals, \$1.50 a year, including index; foreign subscription \$2.10 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Notes of General Interest

REORGANIZATION

Under the provisions of the President's Reorganization plan no. 2, made effective July 1, 1939, by Public resolution 20, 76th Congress, the Inland Waterways Corporation was transferred from the supervision of the Secretary of War, with all its functions and obligations, to be administered therein under the supervision and direction of the Secretary of Commerce. The Reorganization plan also provides that "The capital stock of the Corporation shall continue to be held for the United States by the Secretary of the Treasury, but all other functions, rights, privileges, and powers and all duties and liabilities of the Secretary of War relating to the Inland Waterways Corporation are hereby transferred to, and shall be exercised, performed, and discharged by, the Secretary of Commerce".

RECIPROCITY INFORMATION COMMITTEE

The Committee for Reciprocity Information was created by Executive order 6750, issued June 27, 1934, to consist of members designated from personnel of their respective departments or offices by the Secretary of State, the Secretary of the Treasury, the Secretary of Agriculture, the Secretary of Commerce, the chairman of the Tariff Commission, and the heads of such other Federal departments or offices as may be named from time to time by the Executive Committee on Commercial Policy. Executive order 8190, effective July 1, 1939, placed the Committee for Reciprocity Information under the jurisdiction and control of the Department of State. The Executive order also provides that the Executive Committee on Commercial Policy shall continue to exercise its function of selecting certain members of the said Committee; but the Secretary of State shall designate from the membership of the Committee the Chairman thereof.

Corrections for Previous Monthly Catalogs

March 1940. On page 340, under center head "Commerce Committee, Senate," the subhead "*Missouri River*" 2d line of entry change "Mississippi" to read "Missouri".

April 1940. On page 453, under subhead "*Demand and price*" change name "Richard O. Bean" to read "Richard O. Been"; on page 614, under subhead "*Tables of organization*," last entry, change first word "Signer" to read "Signal".

Geological Survey, Topographic quadrangle maps

In the entries for the Topographic quadrangle maps in the February and March 1940 Monthly catalogs, page 199 and page 362, respectively, the longitudes and latitudes were inadvertently transposed. The figures for the longitudes should have been those for the latitudes, i. e., "lat. 89°-89°15', long. 41°-41°15' " should read "lat. 41°-41°15', long. 89°15' ".

PUBLIC ROADS BUREAU

NOTE.—The Bureau of Public Roads in the Department of Agriculture, under provisions of the President's Reorganization plan no. 1, made effective July 1, 1939, by Public Resolution 20, 76th Congress, was transferred from the Department of Agriculture to the newly created Federal Works Agency, to be administered as the Public Roads Administration.

All functions and personnel (including the Chief thereof) of the Secretary of Agriculture relating to the administration of the Bureau of Public Roads were transferred to the Federal Works Administrator.

The publication listed below was prepared by the Agriculture Department. See also Public Roads Administration under Federal Works Agency.

Transportation maps

NOTE.—These maps show in color the Federal-aid and State highways, with status of improvement, principal connecting roads, railroads, airways and airports, canals and dredged channels—in short, all the media of organized transportation. They also show the boundaries or locations of National and State forests and parks, Indian reservations, military reservations and recreational areas with the roads leading to them. Special maps to a larger scale, printed as insets on the regular sheets, where practicable, show in better detail, the transportation routes within the larger metropolitan areas.

Business information service. [Processed.] † except as indicated in note below. C 18.182 and 183:

NOTE.—This service gives to a limited number of organizations data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any public organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations in the United States can obtain the service on a subscription basis, payable \$10.00 annually, at the Foreign and Domestic Commerce Bureau.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700 which contain only summary monthly statistics the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States" and it is only through subscription to appropriate statistical statements that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being \$1.00. Where the subscriber resides outside the United States an additional charge—usually \$1.00 per year—is levied. Single copies are to be charged for at the rate of one-tenth of the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1940 as follows:

- 1700—Summary foreign trade statistics. (4 statements.)
- 2100—Tobacco and tobacco products: issued by Tobacco Division. (1 statement.)
- 2400—Finance: issued by Finance Division. (2 statements.)
- 2600—Agricultural implements: issued by Machinery Division. (6 statements.)

LAWS

NOTE.—The public and private acts and public and private joint resolutions are first published separately, and in this form are known as "slip laws." Heretofore, at the end of each session of Congress they have been published in a paper edition popularly known as Session or Pamphlet laws; subsequently the Session laws for the whole Congress were printed in a permanent bound edition entitled Statutes at large.

Beginning with the 75th Congress in accordance with provisions of S. 3440, 74th Congress (Public 724, approved June 20, 1936), the Session or Pamphlet laws were discontinued.

Topographic quadrangle maps

NOTE.—The Geological Survey makes the contoured—i. e., the three-dimensional topographic maps of the country that are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to $\frac{1}{2}$ mile, 1 mile, and 2 miles to 1 inch. The area covered varies with the latitude, but the average area of a quadrangle is 58,230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together. In ordering, give the name of the map and the State in which the area lies.

NOTE.—The Reclamation era is a magazine for the farmers and the personnel of the Bureau. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the Bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the Bureau's needs.

The subscription price of the Reclamation era is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., accompanied by remittance in the form of postal money order or New York draft, which should be made payable to the Treasurer of the United States and forwarded to the Bureau of Reclamation.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to Knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to book dealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratis* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing lists of public libraries and other educational establishments but no *general mailing list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes. The publications in the other series have free transmission by mail, and therefore, are included in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—All publications of the Department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. The Department of State Bulletin, published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (nos. 163, 164, and 168 which are listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, *Federal register*.

TAX APPEALS BOARD

NOTE.—The Board of Tax Appeals reports are first promulgated in leaflet form, designated as "advance sheets." At the end of each month, these advance sheets are consolidated into pamphlet form and published as "advance parts." A list of memorandum opinions is included in each pamphlet. Later, the advance parts are consolidated and issued in bound volumes. Both the advance sheets and the advance parts are sold on subscription by the Superintendent of Documents, Government Printing Office, Washington, D. C. The subscription price of the "advance sheets" is \$2.25 per volume, foreign subscription, \$2.85; single copies usually 5c. The "advance parts," or monthly consolidations, are sold as follows: 20c., single copy, \$1.25 per volume, foreign subscription, \$1.85. The price of the bound volume will be given upon application.

MISSISSIPPI RIVER COMMISSION

NOTE.—The publications of the Mississippi River Commission consist of annual reports, annual pamphlets showing daily river stages, annual pamphlets showing daily river discharge, and annual pamphlets showing results of river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the Mississippi River Commission. The Mississippi River Commission publishes maps and charts of the Mississippi River; navigation maps of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, Louisiana; and wall maps in colors of the lower Mississippi River Valley from the head of the St. Francis Basin near Cape Girardeau, Mo., to the Gulf of Mexico, Louisiana, scale 1:500,000 and 1:250,000. Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Mississippi River Commission; the topographic quadrangle maps comprise over 200 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi, and Louisiana adjacent to the Mississippi River and tributaries, with an area of almost 51,000 square miles mapped. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. Box 80, Vicksburg, Miss.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, may be purchased for 75 cents from the U. S. Lake Survey Office and from the Superintendent of Documents. The bulletin is revised annually

FINANCE DEPARTMENT

Finance circulars. ‡

NOTE.—Finance circulars contain instructions and information of a relatively permanent character pertaining to the performance of the technical duties of finance and disbursing officers and of property auditors. Though bearing dates, they are grouped according to subject matter. Each group of circulars is designated by a letter, and the circulars in each group are numbered consecutively. Numbered changes are issued separately for each circular as required. Issued with a T-hole punch for binding.

Explanation

Words and figures enclosed in brackets [] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C.; if processed, publisher is issuing office. When size is not given octavo is to be understood. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents and requests for them, if they are available, should be addressed to the issuing office.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, press releases and administrative, regional, and confidential publications are omitted.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (the 25 percent discount to dealers does not apply to the Congressional record (daily issues and subscription), Supreme Court reports (bound volumes and subscription), Catalog of copyright entries, Climatological data (subscription) and all weather maps, Weekly corn and wheat region bulletin, and Weekly weather and crop bulletin, Federal register (subscription), 1938 U. S. wall map, old Naval documents, and Writings of George Washington, which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock, which amounts to more than 8 million, includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the price lists, the Documents Office issues a Weekly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 72, 76-1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Colombia, Cuba, Dominican Republic, Ecuador, Guatemala, Honduras, Mexico, Newfoundland (including Labrador), Panama, or Venezuela. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Card Division, Library of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sent to public libraries free on application. Subscription price to individuals, \$1.50 a year, including index; foreign subscription \$2.10 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Notes of General Interest

Reorganization Act of 1939

Pursuant to the Reorganization act of 1939, approved April 3, 1939, the President submitted to Congress Reorganization plans 3 and 4, made effective June 30, 1940, by Public resolution 75, 76th Congress.

CIVIL AERONAUTICS AUTHORITY

The Civil Aeronautics Authority administrator under the provisions of the third plan on Government reorganization was made the chief administrative officer of the Authority. Under provisions of the fourth plan, the Civil Aeronautics Authority, the Office of the Administrator of Civil Aeronautics, and the Air Safety Board were transferred to the Department of Commerce. The functions of the Air Safety Board were consolidated with those of the Civil Aeronautics Authority, which shall hereafter be known as the Civil Aeronautics Board and which shall in addition to its other functions, discharge the duties heretofore vested in the Air Safety Board so as to provide for the independent investigation of aircraft accidents. The offices of the members of the Air Safety Board were abolished. The Administrator of Civil Aeronautics, whose functions shall be administered under the direction and supervision of the Secretary of Commerce, and the Civil Aeronautics Board, which shall report to Congress and the President through the Secretary of Commerce, shall constitute the Civil Aeronautics Authority within the Department of Commerce.

FISH AND WILDLIFE SERVICE

The President's Reorganization plan no. 2, made effective July 1, 1939, transferred the Bureau of Fisheries of the Department of Commerce and the Bureau of Biological Survey of the Department of Agriculture to the Department of the Interior, and thus concentrated in one department the two bureaus responsible for the conservation and utilization of the wildlife resources of the Nation. Under provisions of the Reorganization plan no. 3, made effective June 30, 1940, by Public resolution 75, 76th Congress, the Bureau of Fisheries and the Bureau of Biological Survey in the Department of the Interior with their respective functions were consolidated into one agency in the Department of the Interior to be known as the Fish and Wildlife Service. The functions of the consolidated agency shall be administered under the direction and supervision of the Secretary of the Interior by a Director and not more than two assistant directors who shall be appointed by the Secretary and perform such duties as he shall prescribe.

WEATHER BUREAU

The importance of the Weather Bureau's functions to the Nation's commerce has led to the decision to transfer this Bureau to the Department of Commerce. The development of the aviation industry has imposed upon the Weather Bureau a major responsibility in the field of air transportation. The transfer to the Department of Commerce, will permit better coordination of Government activities relating to aviation and to commerce generally, without in any way lessening the Bureau's contribution to agriculture. The Weather Bureau in the Department of Agriculture and its functions were transferred to the Department of Commerce to be administered under the direction and supervision of the Secretary of Commerce, as provided for by the President's Reorganization plan no. 4.

Business information service. [Processed.] † except as indicated in note below
C 18.182 and 183

NOTE.—This service gives to a limited number of organizations data on subject pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any public organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations prescribed by the Foreign and Domestic Commerce Bureau. Private organizations in the United States can obtain the service on a subscription basis, payable \$10.00 annually at the Foreign and Domestic Commerce Bureau.

— United States foreign trade statistics, monthly statement, advance official data subject to revision. [Processed.] † various prices, see note below.
C 18.185: no.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700 which contain only summary monthly statistics the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States" and it is only through subscription to appropriate statistical statements that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being \$1.00. Where the subscriber resides outside the United States an additional charge—usually \$1.00 per year—is levied. Single copies are to be charged for at the rate of one-tenth of the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1940 as follows:

- 1700—Summary foreign trade statistics. (4 statements.)
- 2100—Tobacco and tobacco products; issued by Tobacco Division. (1 statement.)
- 2400—Finance; issued by Finance Division. (2 statements.)

LAWS

NOTE.—The public and private acts and public and private joint resolutions are first published separately, and in this form are known as "slip laws." Heretofore, at the end of each session of Congress they have been published in a paper edition popularly known as *Session or Pamphlet laws*; subsequently the *Session laws* for the whole Congress were printed in a permanent bound edition entitled *Statutes at large*.

Beginning with the 75th Congress in accordance with provisions of S. 3440, 74th Congress (Public 724, approved June 20, 1936), the *Session or Pamphlet laws* were discontinued and the *Statutes at large* heretofore published at the end of a Congress will be issued at the end of each session of Congress.

Each act of Congress in slip form now bears the chapter number of the *Statutes at large* in which it will appear later, as well as the session of Congress to which it belongs, but this information does not appear in the entries listed below.

NOTE.—For a number of years the Federal Power Commission has published annually, by States, reports showing electric rates in the form of "typical net monthly bills." This Rate Book, while complete in itself, will not supplant the typical monthly bill reports, but will be a companion to those publications. The typical monthly bill reports are computations, in dollars and cents, made from rate schedules. The Rate Book is a compilation of the actual rate schedules in the form of abstracts. Thus, the typical bill reports will serve as a guide and index to the levels and trends of electric rates and the Rate Book will serve as a guide and index to the actual rate schedules in effect throughout the country.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Monographs, Professional papers, Bulletins, Water-supply papers, folios of the Geologic atlas of the United States, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States. Practically all of them are sale publications. The maps and folios are sold by the Geological Survey at Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C.

- Publications* issued in May 1940, list 387. [1940.] 5 p. [Monthly.] ‡

Maps

NOTE.—The maps listed below are sold by the Geological Survey. Remittances for these maps should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on an order for maps, or for maps and geologic folios, that amounts to \$5.00 at the retail price. In ordering give the name of each map and the State in which the area lies.

Applegate River. Plan and profile of Applegate River, Oregon-California, from point 2 miles below Newhope to Williams Creek, and from point 2 miles below Beaver Creek to Elliott Creek dam sites, topography by R. O. Helland and Frank Packard, surveyed in 1936-37; [maps]. Scales 1:31,680, and 1:4,800 or 1 in.=400 ft., contour intervals on land 20 and 10 ft., contour intervals on river surface 5 and 1 ft. n. p. 1940. 4 sheets (1-4) each 18×25 in. Topographic quadrangle maps

NOTE.—The Geological Survey makes the contoured—i. e., the three-dimensional topographic maps of the country that are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to $\frac{1}{2}$ mile, 1 mile, and 2 miles to 1 inch. The area covered varies with the latitude, but the average area of a quadrangle is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16 $\frac{1}{2}$ inches, and the maps of the quadrangle areas represented thereon are about 17 $\frac{1}{2}$ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together. In ordering, give the name of the map and the State in which the area lies.

NOTE.—The *Reclamation era* is a magazine for the farmers and the personnel of the Bureau. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the Bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the Bureau's needs.

The subscription price of the *Reclamation era* is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., accompanied by remittance in the form of postal money order or New York draft, which should be made payable to the Treasurer of the United States and forwarded to the Bureau of Reclamation.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,550 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for January 1940, page 109.

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—All publications of the Department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled *Foreign relations of the United States*. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation *Treaties and other international acts of the United States of America*, which contains literal copies of the documents, followed by notes of a textual and procedural character. The Department of State Bulletin, published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (no. 170 which is listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, *Federal register*.

Army regulations.

NOTE.—Army regulations are administrative regulations and are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series, and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.

MISSISSIPPI RIVER COMMISSION

NOTE.—The publications of the Mississippi River Commission consist of annual reports, annual pamphlets showing daily river stages, annual pamphlets showing daily river discharge, and annual pamphlets showing results of river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the Mississippi River Commission. The Mississippi River Commission publishes maps and charts of the Mississippi River; navigation maps of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, Louisiana; and wall maps in colors of the lower Mississippi River Valley from the head of the St. Francis Basin near Cape Girardeau, Mo., to the Gulf of Mexico, Louisiana, scale 1:500,000 and 1:250,000. Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Mississippi River Commission; the topographic quadrangle maps comprise over 200 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi, and Louisiana adjacent to the Mississippi River and tributaries, with an area of almost 51,000 square miles mapped. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. Box 80, Vicksburg, Miss.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, may be purchased for 75 cents from the U. S. Lake Survey Office and from the Superintendent of Documents. The bulletin is revised annually and issued at the opening of navigation (in April). Supplements thereto are published monthly during the navigation season and are sent free to all who purchase the bulletin.

Complete sets of charts and publications may be seen at the U. S. Engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, and at the Office, Chief of Engineers, U. S. Army, Washington, D. C., but they are obtainable only at the sales offices above mentioned.

Explanation

Words and figures enclosed in brackets [] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C.; if processed, publisher is issuing office. When size is not given octavo is to be understood. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, c. g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents and requests for them, if they are available, should be addressed to the issuing office.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, press releases and administrative, regional, and confidential publications are omitted.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (the 25 percent discount to dealers does not apply to the Congressional record (daily issues and subscription), Supreme Court reports (bound volumes and subscription), Catalog of copyright entries, Climatological data (subscription) and all weather maps, Weekly corn and wheat region bulletin, and Weekly weather and crop bulletin, Federal register (subscription), 1938 U. S. wall map, old Naval documents, and Writings of George Washington, which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock, which amounts to more than 8 million, includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the price lists, the Documents Office issues a Weekly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 72, 76-1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Colombia, Cuba, Dominican Republic, Ecuador, Guatemala, Honduras, Mexico, Newfoundland (including Labrador), Panama, or Venezuela. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Card Division, Library of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sent to public libraries free on application. Subscription price to individuals, \$1.50 a year, including index; foreign subscription \$2.10 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

Notes of General Interest

Reorganization Plan No. 3

Under the provisions of the President's Reorganization plan no. 3, made effective June 30, 1940, by Public resolution 75, 76th Congress, the following new agencies in the Agriculture Department and the Treasury Department were created.

For other changes effected by this plan see July 1940 Monthly catalog.

SURPLUS MARKETING ADMINISTRATION

The Division of Marketing and Marketing Agreements of the Department of Agriculture and its functions and the Federal Surplus Commodities Corporation as an agency of the Department of Agriculture and its functions are consolidated into one agency in the Department of Agriculture to be known as the Surplus Marketing Administration. This consolidation is designed to facilitate the work of the Department of Agriculture relating to the formulation and administration of marketing agreements and the disposition of agricultural surpluses. The Surplus Marketing Administration shall be headed by an Administrator who shall be appointed by and subject to the direction and supervision of the Secretary of Agriculture.

FISCAL SERVICE

The office of the Commissioner of Accounts and Deposits, the Division of Bookkeeping and Warrants, the Division of Disbursement, the Division of Deposits, the Section of Surety Bonds, the office of the Commissioner of the Public Debt, the Division of Loans and Currency, the office of the Register of the Treasury, the Division of Public Debt Accounts and Audit, the Division of Savings Bonds, the Division of Paper Custody, and the Office of the Treasurer of the United States and their functions are consolidated into one agency of the Treasury Department to be known as the Fiscal Service, at the head of which there shall be an officer who shall be known as the Fiscal Assistant Secretary. The functions brought together in the Fiscal Service are all closely interrelated and are essential parts of financing and fiscal control.

The Fiscal Service shall consist of the Office of the Fiscal Assistant Secretary, the Office of the Treasurer of the United States, a Bureau of Accounts, and a Bureau of Public Debt. Except as is otherwise specifically provided, the Secretary of the Treasury may establish such divisions and other constituent units within these agencies as he deems necessary.

Accounts Bureau. The Division of Bookkeeping and Warrants and its functions are transferred to the Bureau of Accounts, at the head of which shall be the Commissioner of Accounts and Deposits, who shall hereafter be known as the Commissioner of Accounts.

Public Debt Bureau. The office of the Commissioner of the Public Debt, the Division of Loans and Currency, the office of the Register of the Treasury, the

Division of Public Debt Accounts and Audit, the Division of Savings Bonds, and the Division of Paper Custody and their functions are consolidated into and shall be administered as the Bureau of Public Debt, at the head of which shall be the Commissioner of the Public Debt.

Treasurer of United States. The functions of the Office of Treasurer of the United States shall be administered by the Treasurer of the United States under the Fiscal Service.

Reorganization Plan No. 5

Under the provisions of the President's Reorganization plan no. 5, made effective June 14, 1940, by Public resolution 75, 76th Congress, the following transfer was effected.

IMMIGRATION AND NATURALIZATION SERVICE

The Immigration and Naturalization Service of the Department of Labor (including the Office of the Commissioner of Immigration and Naturalization) and its functions are transferred to the Department of Justice and shall be administered under the direction and supervision of the Attorney General. All functions and powers of the Secretary of Labor relating to the administration of the Immigration and Naturalization Service and its functions or to the administration of the immigration and naturalization laws are transferred to the Attorney General. In the event of disagreement between the head of any department or agency and the Attorney General concerning the interpretation or application of any law pertaining to immigration, naturalization, or nationality, final determination shall be made by the Attorney General.

NOTE.—This service gives to a limited number of organizations data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any public organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations in the United States can obtain the service on a subscription basis, payable \$10.00 annually, at the Foreign and Domestic Commerce Bureau.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700 which contain only summary monthly statistics the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States" and it is only through subscription to appropriate statistical statements that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being \$1.00. Where the subscriber resides outside the United States an additional charge—usually \$1.00 per year—is levied. Single copies are to be charged for at the rate of one-tenth of the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1940 as follows:

- 1700—Summary foreign trade statistics. (4 statements.)
- 2100—Tobacco and tobacco products; issued by Tobacco Division. (1 statement.)
- 2400—Finance; issued by Finance Division. (2 statements.)
- 2600—Agricultural implements; issued by Machinery Division. (6 statements.)

LAWS

NOTE.—The public and private acts and public and private joint resolutions are first published separately, and in this form are known as "slip laws." Heretofore, at the end of each session of Congress they have been published in a paper edition popularly known as Session or Pamphlet laws; subsequently the Session laws for the whole Congress were printed in a permanent bound edition entitled Statutes at large.

Beginning with the 75th Congress in accordance with provisions of S. 3440, 74th Congress (Public 724, approved June 20, 1936), the Session or Pamphlet laws were discontinued and the Statutes at large heretofore published at the end of a Congress will be issued at the end of each session of Congress.

Each act of Congress in slip form now bears the chapter number of the Statutes at large in which it will appear later, as well as the session of Congress to which it belongs but this information does not appear in the entries listed below.

Private [act] 511-537, 76th Congress.
